CRITICAL GLOBAL ISSUE

GEOPOLITICS & POWER

2020–2021 STUDY ABROAD PROGRAMS

SCHOOL FOR INTERNATIONAL TRAINING

STUDY ABROAD
SIT Study Abroad programs are interdisciplinary and appropriate for a variety of majors. This gives students the opportunity to grapple with the complexities of today’s most pressing issues in specific cultural and geographical contexts or comparatively across several countries.

SIT programs are developed around a framework of the most Critical Global Issues (CGIs) of our time—challenges that transcend borders to touch every human on the planet. We have developed this framework so that the next generation of leaders has the expertise and intercultural understanding to engage multiple identities, perspectives, and cultures in respectful, enduring, and meaningful responses. There are seven CGIs in our framework including: Climate & Environment, Development & Inequality, Education & Social Change, Geopolitics & Power, Global Health & Well-being, Identity & Human Resilience, and Peace & Justice. Explore SIT’s complete CGI Framework.

INTERNATIONAL HONORS PROGRAM

International Honors Programs (IHP) offer students the opportunity to compare and contrast a critical issue in multiple countries within the framework of SIT’s values of community, intercultural understanding, sustainability, social inclusion, and justice. These academically rigorous semester-long programs explore health, human rights, climate change, cities, or food systems across four continents. Students begin examining an issue in the United States and deepen their understanding as they travel to three additional countries. By analyzing issues and systems from a local to global scale, students begin to understand their complexity and the challenges of addressing them. Program themes and locations are developed simultaneously, with locations selected for their relevance to the subject and their contrasts with each other. The IHP curriculum is intensive and includes four courses taught by academics and field specialists, augmented by site visits and research. Learn more about IHP.
Power shifts and power plays challenge outmoded geopolitical models that are failing to ensure global security and stability. Disruptions, though tumultuous, create spaces to interrogate the politics of the past and construct alternative systems of power. Our programs explore the many shocks to the system that give rise to regional independence movements, new forms of populism rife with old nationalisms, and illiberal democracies, and ask, “What next?” Students gain nuanced perspectives from leading political scientists, diplomats, policymakers, and civic activists who are engaged in reimagining our political future. Explore programs under our Geopolitics & Power CGI.
Please note that SIT will make every effort to maintain its programs as described. To respond to emergent situations, however, SIT may have to change or cancel programs. Please see the SIT Study Abroad website for the most up-to-date information, studyabroad.sit.edu.
