2020–2021 STUDY ABROAD PROGRAMS

SCHOOL FOR INTERNATIONAL TRAINING

STUDY ABROAD
SIT is a leader in immersive, field-based study abroad programs for undergraduates. We offer more than 70 programs in Africa, Asia and the Pacific, Europe, Latin America, and the Middle East, as well as comparative honors (IHP) programs in multiple locations. In addition to our rich history, our programs’ unique qualities—including exceptional locations, independent research, internships, cultural immersion, and deep networks of local partners—make our programs an ideal choice for an extraordinary and transformative study abroad experience.

SIT Study Abroad programs are interdisciplinary and appropriate for a variety of majors. This gives students the opportunity to grapple with the complexities of today’s most pressing issues in specific cultural and geographical contexts or comparatively across several countries.

SIT programs are developed around a framework of the most Critical Global Issues (CGIs) of our time—challenges that transcend borders to touch every human on the planet. We have developed this framework so that the next generation of leaders has the expertise and intercultural understanding to engage multiple identities, perspectives, and cultures in respectful, enduring, and meaningful responses. There are seven CGIs in our framework including: Climate & Environment, Development & Inequality, Education & Social Change, Geopolitics & Power, Global Health & Well-being, Identity & Human Resilience, and Peace & Justice. Explore SIT’s complete CGI Framework.

INTERNATIONAL HONORS PROGRAM

International Honors Programs (IHP) offer students the opportunity to compare and contrast a critical issue in multiple countries within the framework of SIT’s values of community, intercultural understanding, sustainability, social inclusion, and justice. These academically rigorous semester-long programs explore health, human rights, climate change, cities, or food systems across four continents. Students begin examining an issue in the United States and deepen their understanding as they travel to three additional countries. By analyzing issues and systems from a local to global scale, students begin to understand their complexity and the challenges of addressing them. Program themes and locations are developed simultaneously, with locations selected for their relevance to the subject and their contrasts with each other. The IHP curriculum is intensive and includes four courses taught by academics and field specialists, augmented by site visits and research. Learn more about IHP.
Conflict—incited by structural inequality, migration, identity and exclusion, resource scarcity, and historical trauma—manifests through war, revolution, and other forms of violent and coercive mobilization. In the face of this reality, the prospect of long-term peace often seems unattainable. Our programs explore how changemakers manage conflict constructively, balance reconciliation and justice, and support post-conflict remembrance and healing. Students evaluate the root causes of conflict to develop evidence-based strategies designed to transform our world into one that is more peaceful and just. Explore programs under our Peace & Justice CGI.
Please note that SIT will make every effort to maintain its programs as described. To respond to emergent situations, however, SIT may have to change or cancel programs. Please see the SIT Study Abroad website for the most up-to-date information, studyabroad.sit.edu.
